Presented by

**AN ORDINANCE RELATIVE TO**  
THE ESTABLISHMENT OF  
GRADES AND SIDEWALK LINES  
ON KALAKAUA AVENUE FROM  
KAPIOLANI PARK BRIDGE TO  
THE SOUTHEAST BOUNDARY  
LINE OF MRS. BEATRICE C.  
BECKLEY'S PROPERTY, PALKAI  
ROAD.

Be It Ordained by the People of the  
City and County of Honolulu:  
Section 1. Grades, Datum Plane.  
That the grades of that portion of  
Kalakaua Avenue, in the District of  
Honolulu, City and County of Honolulu,  
Territory of Hawaii, lying be-  
tween Kapiolani Park bridge and the  
southeast boundary line of Mrs. Be-  
atrice C. Beckley's property on Palkai  
Road, as hereinafter set forth, are  
established in reference to a datum  
plane being mean tide at said District  
of Honolulu, and being located as fol-  
lows, to wit:

Hawaii has its breadfruit trees, and  
Australia has its mutton birds, and  
now comes Brazil, flaunting its boast  
to the world that it is producing the  
best breadfruit in the world.

Hawaii has one true booster. We  
don't know his name, and if we did  
know it we would not tell it to the  
public for he might be hound to take  
the lead in promotion work. I heard  
him the other day holding forth to some  
of the congressional visitors.  
After he had boasted for Hawaii for  
two solid hours, he wound up by telling  
these people that our climate was  
the best in the world and that even  
our mud is better than any other mud  
in the world.

And now we have that ding-busted  
Mayor Lane's plan to stir up the com-  
munity and will probably be a fea-  
ture of the next session and be a  
plank in one of the platforms. Well,  
we can't stop it now but it seems to  
me that if "I were a mayor" I would  
have shot the "invitation" part of that  
mean run of rat notes, especially, if  
somebody else was saying for it.  
Mayor Lane may have an idea that  
what he did was all right, but his  
title ain't perfect.

Out where the cowboys live they  
are called cowpunchers. That's where  
Jess got his punch that created the  
extinguished fellow citizen, Jack John-  
son. Since the settling of that su-  
preme question on Cuba's soil, we have  
noticed that Johnson was referred to as  
"aged." That ought to convince  
anybody that that dark-skinned, dog-  
dering old wretch of 37 years gave up  
the champion ghost through senile de-  
cay and that the punches of Jess  
Willard had nothing to do with it.

Commencing at a point which  
marks the end of course No. 20 of  
Kalakaua Avenue, Datum Ordnance No. 13,  
said point being by coordinates as re-  
ferred to the Government Triangula-  
tion Survey Station "Leah" North  
3841.9 feet, and West 3964.5 feet, and  
being also by true azimuth 156° 47' distance 53.19 feet from a City Survey  
Street Monument, which marks the  
center line intersections of the end of  
Kalakaua Avenue Ordnance No. 13  
and this survey, and running as fol-  
lows by true azimuths:

1. On a curve to the right with a  
radius of 123.08 feet, to tangent, the  
airst bearing and distance being 342°  
04' 16" 105.89 feet;

2. 347° 22' 30" 3235.6 feet; thence  
on a curve to the left with a radius of  
243.8 feet, the direct bearing and  
distance being

on a curve to the left with a radius of  
126.4 feet, the direct bearing and dis-  
tance being

6. 256° 59' 00" 50.0 feet; thence on  
a curve to the left, with a radius of  
376.4 feet, the direct bearing and dis-  
tance being

7. 250° 55' 00" 79.6 feet; thence

a curve to the right, with a radius of  
50.0 feet, the direct bearing and dis-  
tance being

9. 270° 50' 30" 70.7 feet; thence  
10. 334° 50' 00" 550.4 feet.

Section 3. Profile and Plan. That  
Grade Man No. 8 on file in the office  
of the Engineers of the City and County  
of Honolulu is hereby approved and  
adopted as the profile and plan of said  
grade and sidewalk lines.

Section 4. This ordinance shall  
take effect fifteen days from and after  
the date of its approval.

Introduced by  
CHAS. N. ARNOLD.  
Supervisor.

Date of introduction:  
Honolulu, May 27, 1915.

At a regular adjourned meeting of  
the Board of Supervisors of the City and  
County of Honolulu held Thurs-  
day, May 27, 1915, the foregoing Bill  
was passed on first reading and or-  
dered to print on the following vote:

Ayes: Aha, Arnold, Hollinger, Hor-  
ner, Larsen, Logan. Total 6.  
Noses: None.

\$25 REWARD.

A reward of \$25 is hereby offered for  
information leading to the arrest  
and conviction of the person or persons  
who set poison for and killed by  
poisoning my female collie on Sunday,  
May 23.

Mr. C. Peters,  
Deputy City and County Clerk.  
5175-231.

Governor Welsh of Massachusetts  
signed the bill for completing the dry  
dock in South Boston.

TOM MERLE.

# Merle's Musings

We are exceedingly pleased to note  
that our dower mayor is better.

Into each life a little gasoline must  
fall. Better look the new 1917 models  
over next time you are close to a  
dealers.

Doomed again. The legislature has  
dissolved without settling the ques-  
tion of exactly where, on a man's hat,  
the bow should be.

In April all sports generally com-  
mence to him, in May we move, in  
June get married; one blamed  
thing after another.

Another parcel of soldiers has been  
sent to the Mexican border. Wonder  
if it wouldn't be cheaper to send them  
down there by parcel post.

I positively refuse to be drawn into  
the controversy between whisky and  
non-whisky, but I cannot, before asking,  
did you ever see or hear of "union-  
made" whisky?

We don't want any of our public  
officers to feel that they are being  
persecuted; we all have trials of our  
own in this world. Becker, formerly of  
the New York police force, is said  
to be getting ready for his third.

Bradstreet's reports 416 failures in  
the United States during the last  
week of March, 1915. In the same  
week in the same month in 1914 there  
were but 266 failures. Oh, watchful  
waiting wins. Psychological, of course.

Hawaii has its breadfruit trees, and  
Australia has its mutton birds, and  
now comes Brazil, flaunting its boast  
to the world that it is producing the

best breadfruit in the world.

Brazilian milk tree. We expect to see  
the advertisement soon of "Milk from  
Contented Trees."

For the life of me I can't see how  
the spots on the sun can furnish any  
excuse for not cleaning up the back  
yard or fixing the streets of Honolulu;  
but don't anybody take to drink over  
these troubles, whiskey doesn't drown  
your troubles, it floats 'em.

From what we read in the news-  
papers one would be under the im-  
pression that the Germans are nursing  
a great big peeve because they feel  
that this country is in sympathy with  
the Allies. We can't say that such a  
condition of sympathy exists, but if it  
does, whose fault is it?

In the progress of nations Japan has  
not been a laggard by any means. We  
note that in the recent unpleasant-  
ness in Japan's naval circles, an un-  
pleasantness referred to by unfriendly  
newspapers as naval grafters, who, when  
pointed at by the finger of accusation  
did not commit hara-kiri, as would  
have done their ancestors—they hired  
lawyers.

California has just dug up the knee  
joint of a mammoth, said to be in the  
neighborhood of 275,000 years old. It  
is 12 inches in diameter and a trifle  
over 16 inches long. While the meas-  
urements are not to be wondered at,  
still we cannot help conjuring up a  
mental blue print of what an order of  
mastodon spare ribs and sauerkraut  
would look like in those good old days.

Elizabeth—: I hardly know  
what to think of your communication.  
You might make him sign the "agreement"  
that is on the back of the receipts  
handed out by most express  
companies before you marry him. You  
should not have asked him if he would  
be willing to die for you. He showed his  
good qualities when he refused to be  
a party to any such foolish ar-  
rangement. Besides, he is probably an  
unloving affection for you.

After hearing a story of a citizen of  
Anahola, Kauai, who cleared \$400 from  
an acre of samoa, we looked roughly  
into the matter for the purpose of  
using the incident as a "boost-  
er" for the territory and we learned  
that he had to gather the sassafras  
and send it to the market. These  
stories of sudden riches being wrested  
from mother earth surely prove to be  
"bunk" when traced right back. We  
generally find the monster "Work"  
hanging over the whole business. Any  
body can get rich working.
